EDUCATION

University of Ottawa Honours BSc. **Computer Science** (4th Year, GPA: 3.5/4) Sep 2021 - Dec 2025

SKILLS

AWS Certification	**AWS Certified Cloud Practitioner**
Solace Certification	**Solace Certified Developer Practitioner**
Programming Languages	HTML5, CSS, Javascript, Python, Java, SQL
Web Development	React, Node.js, Express.js, Next.js, MongoDB, Tailwind
AWS	AWS Lambda, S3, EC2, Lex, Cloudwatch, DynamoDB
Other Technologies	Docker, Github, Jenkins, Terraform, Github Actions, Spring Boot

WORK EXPERIENCE

Incoming Software Engineer | Solace *January 2025 - May 2025*
(Linux, C++)

Web Developer | JPlug.io *September 2024 - December 2024*
(Java, JUnit, Spring Boot, Github Actions, Docker)

- Designed and implemented front-end components using TypeScript and React, enhancing modularity.
- Integrated REST APIs into React components to fetch and display dynamic data

Quality Assurance Engineer | Solace *May 2024 - August 2024*
(Java, JUnit, Spring Boot, Github Actions, Docker)

- Contributed JUnit test cases for Solace Connectors, enhancing **test coverage** and reliability.
- Refactored Code to improve Code Readability and Reusability
- Developed scripts to automate the local execution of connectors, improving efficiency by over **80%**.

Web Developer | PickPack *September 2023 - December 2023*
(Python, Selenium, Github Actions)

- Created and documented comprehensive test cases using Selenium, covering a diverse set of scenarios across over 10 different websites.
- Developed a test suite for global usability across five popular browsers and multiple languages.
- Utilized Github Actions for **continuous testing and delivery**

PROJECTS

CI/CD Pipeline for Personal Website *May 2023*
(React, TailwindCSS, Rest-API, Next.js, Github Actions)

- Developed a personal website using TailwindCSS for responsive layouts and implemented a CI/CD pipeline with GitHub Actions for automated deployment.

AWS Lambda Github Security Application *July 2023 - August 2023*
(Lambda, Cloudwatch, DynamoDB, SNS, Linux)

- Employed a suite of AWS Services to bolster the security of my GitHub account

CLUBS

UOttawa Page Turners *September 2024 -*

- Designed Club Website to display club information
